

# HOW FRESH CAN YOU GET?

<sup>®</sup> **BALETITE**  
by formipac

**Baletite. Preserve better than ever**

**BALETITE**  
by formipac

®Baletite is a newly developed film that replaces traditional net wrap in round silage bales. With Baletite, opening bales becomes so much easier. Thanks to its excellent structure and sturdiness ®Baletite helps to ensure the production of optimal silage that is fresher than ever.

• Enhanced ensiling process

• Better protection due to the additional layers

• More compact and better shaped bales

• Easier to open. Feeding out can be automated

• Easy recycling together with the wrap

APPLICATION	WIDTH (MM)	LENGTH (M)	THICKNESS (µm)	STRETCHING (%)	REELS/PALLET	PALLET DIMENSIONS (CM)	COLOUR	PALLET HEIGHT (M)
	950	2400	13	5-10%	20	112 X 130	WHITE	± 1.10
	1280	2400	13	5-10%	20	112 X 130	WHITE	± 1.10
	1280	1650	20	20-30%	20	112 X 130	ECO GREEN	± 1.10
	1400	1650	20	20-30%	20	112 X 147	ECO GREEN	± 1.10

**NEW**  
Packaging

## ADVANTAGES

- OVER THE EDGE COVERAGE ⇒ EXTRA PROTECTION OF THE BALE SIDE
- OPTIMAL CLING CAPACITY ⇒ TROUBLE-FREE WORKING IN ALL CIRCUMSTANCES
- PRE-ORIENTED FILM ⇒ SUPERIOR OXYGEN BARRIER
- 5-LAYER BLOWN TECHNOLOGY ⇒ HIGH PUNCTURE RESISTANCE
- HIGH TIGHTENING FORCE ⇒ MORE COMPACT AND DENSER BALES
- SMOOTH SURFACE ⇒ NO FODDER CONTAMINATION
- COLOURED FILM ⇒ OPTIMAL VISUAL CONTROL DURING BINDING
